

INDEX TO VOLUME 38

Subject entries are made for all articles. Author entries are made for original articles. Book Reviews and Obituaries are indexed under these headings in alphabetical order under the letters B and O, respectively.

Abdomen: See Gastrointestinal Tract; Peritoneum; etc.
Abnormalities and Deformities: See Twins; and under names of organs and regions, as Heart; Kidneys; etc.
 bilateral metanephric agenesis with other anomalies, 220
 nondevelopment of septum transversum with congenital absence of anterocentral portion of diaphragm and of suspensory ligament of liver and presence of elongated ductus venosus and pericardioperitoneal foramen, 370
Abcess: See under names of organs and regions, as Brain; etc.
Acetylcholine: See Choline and Choline Derivatives
Acid, Ascorbic: See Ascorbic Acid
 Tartaric: See Tartrates
Acidosis and arteriosclerosis, 263
Acridine Dyes, structural changes following administration of quinaerine hydrochloride, 63
Actinobacillus Lignieresii: See Actinomyces
Actinomyces; Actinobacillus lignieresii endocarditis, 332
Addison's Disease, experimental pathology and physiology of adrenal cortex; production of Addison's disease in laboratory animals, 392
Adenoma of apocrine sweat glands (hidradenoma) of anal canal, 155
 parathyropituitary syndrome (pituitary dysfunction and "primary" hyperparathyroidism), 20
Adipose Tissue: See Obesity
Adrenal Preparations, adrenal cortical hormone and arteriosclerosis, 256
 effect of epinephrine derivatives and precursors on arteriosclerosis, 253
 effect of epinephrine on arteriosclerosis, 247
Adrenals, experimental pathology and physiology of adrenal cortex; production of Addison's disease in laboratory animals, 392
 sudden death with excessive myocardial concentration of epinephrine-like substances in case of obesity and cystic thyroid disease, 110
Age, carcinoma in young persons, 141
 incidence of mammary carcinoma in mice treated with estrogen; effect of age at which treatment with estrogen begins, 52
 Old: See Old Age
Altshul, R.: Histologic analysis of arteriosclerosis, 305
Amebiasis; amebic colitis complicated with abscess of brain, 112
American Medical Association, Scientific Exhibit, 438
Amyloidosis in atypical sites (cardiac valves, larynx), 203
Animals, experimental pathology and physiology of adrenal cortex; production of Addison's disease in laboratory animals, 392
Anoxemia: See under Oxygen
Antiserum: See under names of various diseases
Anus, adenoma of apocrine sweat glands (hidradenoma) of anal canal, 155
Appointments, 62, 186, 286
Argentaffin Tumors: See Gastrointestinal Tract
Armies: See Military Medicine
Arteries: See Arteriosclerosis; Blood pressure; Endarteritis; Periarthritis; Vasomotor System; etc.
Arteriosclerosis, 162, 245, 351
 and adrenal cortical hormone, 256
 and atheromatosis, 352
 and barium chloride, 268

Arteriosclerosis—Continued
 and calcium salts and acidosis, 263
 and cold, 273
 and digitals glucosides and strophanthin, 265
 and ergot, 265
 and hydrastine and hydrastinine, 265
 and lead, 268
 and parathyroid hormone, 258
 and physical trauma, 274
 and pituitary hormones, 256
 and psychic strain, 255
 and 8-methylisothiourea, 267
 and thyroxin and iodine, 271
 and ultraviolet rays, 262
 and vitamin D, 259
 anoxemia theory of, 173
 effect of epinephrine derivatives and precursors on, 253
 effect of epinephrine on, 247
 effect of nicotine on, 251
 effect of physostigmine on, 251
 experimental atherosclerosis; effects of various bile acids on cholesterol levels, 210
 experimental studies on therapy and prevention of degenerative vascular diseases; effect of medication with potassium thiocyanate on experimental cholesterol atheromatosis, 93
 experimental studies on therapy and prevention of degenerative vascular diseases; effect of several detergents on experimental cholesterol atheromatosis of rabbits, 381
 histologic analysis of, 305
 hormones of gonads, as observed at climacteric and in toxemia of pregnancy, 276
 mechanical trauma theory of, 169
 senescence theory of, 162
 spontaneous, in chickens, 46
 toxin theory of, 171
Ascorbic Acid: See also Scurvy
 morphologic and histochemical study of effect of scurvy on tuberculosis in guinea pigs and of origin, amount and distribution of alkaline phosphatase in foci of caseous necrosis, 31
Ashley, J. D., Jr.: Amebic colitis complicated with abscess of brain, 112
Atheromatosis: See Arteriosclerosis
Atherosclerosis: See Arteriosclerosis
Atrophy: See under names of organs and regions
Autopsies, modified technic for removal of nasopharynx and accompanying organs of throat, 313
Awards, 62, 286
Bacilli: See Bacteria
Bacon, C. M.: Actinobacillus lignieresii endocarditis, 332
Bacteria: See also under Streptococci; etc.
 parasitic lactobacilli; critical review of their characteristics and parasitic effects and of bacteriology of dental caries, 413
Barium chloride and arteriosclerosis, 268
Barrett, R. C.: Amyloidosis in atypical sites (cardiac valves, larynx), 203
Benzpyrene, effect of 3,4-benzpyrene on regenerating epidermis of mice, 215
Berenblum, I.: Irritation and carcinogenesis, 233
Bile, experimental atherosclerosis; effects of various bile acids on cholesterol levels, 210
Biliary Tract: See Liver
Blood: See also Erythrocytes; Hemoglobin and Hemoglobin Compounds
 experimental studies in cardiovascular pathology; effects of repeated intravenous injections of solutions of digitonin on blood and internal organs of dogs and rabbits, 326
 experimental studies on therapy and prevention of degenerative vascular diseases; effect of medication with potassium thiocyanate on experimental cholesterol atheromatosis, 93

- Blood**—Continued
 pressure, high; essential hypertension, 357
 pressure, high; experimental investigation of renal circulation, 287
 pressure, high; neurogenic hypertension, 363
 pressure, high; renal hypertension, 350
 Vessels: See Capillaries; Cardiovascular System; Endarteritis; Periarthritis; Vasomotor System; etc.
